

## Action Items 08/01/2025

**Find your Senator's phone number [here](#).**

**Find your House Rep.'s phone number [here](#).**

**Call your Senator and House Representative about any of the following issues.**

### **Issue #1: Oppose the Sharing of Medicaid and IRS Data with ICE**

The Trump administration is increasingly weaponizing data from federal agencies to advance their fascist agenda, particularly their racist attacks on immigrants. Federal agencies have historically protected program enrollees' private information and refused to share it with other agencies. In March 2025, however, Donald Trump ordered all federal agencies to share data on Americans, using right-wing billionaire Peter Thiel's AI company Palantir to accelerate the process. Agencies like the Internal Revenue Service (IRS) and the Department of Health and Human Services (HHS) are now sharing highly sensitive health and financial information with Immigration and Customs Enforcement (ICE) to facilitate their mass deportation operation.

### **Issue #: Protect America's National Parks**

Not content with major NPS budget cuts in the recently-passed One Big Beautiful Bill Act, House Republicans are proposing further NPS cuts in their 2026 appropriations bill. These reductions would slash another \$176 million, more than 6%, from the NPS operating budget.

### Issue #3: Release the Epstein Files

The DOJ's reversal of repeated promises of transparency, along with Trump's aggressive campaign to suppress the story, have violated public trust. Trump's DOJ already operates as a protection racket for Trump. Trump himself is a convicted rapist with a long history of offenses, including some alongside Epstein. The public deserves to know who was involved in this heinous crime ring. Urge your representatives to demand the full public release of the Epstein files.

### Protect Husky for Immigrants

The HUSKY 4 Immigrants Coalition is fighting to ensure all CT residents can access healthcare – no matter their immigration status or age. As Federal cuts start to get implemented, this organization is fighting to ensure access to healthcare in our state and should be an issue added to the special legislative session taking place this fall. Please email or call our CT legislative leaders and urge them to ensure private Medicaid data is not shared with ICE and that current benefits are preserved.

Dear Senator/Representative/Governor [name],

I understand there is a plan for a special legislative session this fall. During this session, I urge you and the rest of the CT legislative leadership to take action to:

- Protect the personal data of immigrants from getting into the hands of ICE.

- Preserve state-funded coverage for all including for undocumented children and pregnant women.
- Increase revenue to keep HUSKY coverage for ALL residents.

Our immigrant communities need to feel safe in the communities they call home. They are a vital part of our communities and economy and they deserve to have access to basic care.

Thank you,
